Subject: A Job Well Done

Hello,

I wanted to contact Ryan Niles to let him know how pleased I was with the work that Randy, John and Brandon performed at Henkel and McCoy's fabrication shop in Mt. Pleasant on this Wednesday and Thursday for Consumers Energy Company. They sandblasted a total of 540' of large bore piping in just 2 days for my project, as well as fixed some incorrect stenciling on the outside of the piping. They were hardworking, very efficient, polite and easy to work with. They also let me ask a lot of questions and watch and learn the sandblasting process. It was very informative and useful for my field experience. Can you please pass on this email to Mr. Niles so that he knows what great crews he has.

Thank you so much,

Jennifer L. Murton | Senior Engineer I | EPM Engineering & Services
Consumers Energy | 1945 W. Parnall Rd P26-302 | Jackson, MI 49201
